Roll and Add

A Christmas math game for Kindergarten and 1st Grade

How to play

Players: 2. You need 2 dice (3 for the 1st grade board) and 1 crayon each, in different colors.

Roll all the dice. Add up the dots.

Color one present with that number, in your color. None left? Your turn ends.

The game ends when every present is colored, or after 10 minutes.

Who wins: The most presents in your color.

Tip: Start with the bigger number and count on.

Laminate the boards to play again with dry-erase markers.
